## Dr. Williams Passes Away

Dr. J. W. Williams, who has been critically ill for several weeks past, died at his home here early Wednesday morning. Dr. Williams had been a sufferer with stomach trouble for a number of years, and in the hope of relief he underwent an operation at the Good Samaritan Hospital a few weeks ago. When it was found that his condition was such that there was no hope for his recovery he was brought back home, and since then had been unable to leave his bed.

Dr. Williams was 66 years old, and was born near Huntington, West Va., coming to Clay City at the time of the boom, some 30 years ago. He commenced the practice of medicine here and soon built up a successful business. One year after coming here he married Miss Fannie Kennon, who survives him. He is also survived by a brother, Joseph, living at Huntington.

Dr. Williams was prominent in fraternal societies and at the time of his death was Treasurer of the Masonic order and also an officer in the Oddfellows. He was also chairman of the Board of Trustees of the town for the

past two years and for some years he was prominent in the Kentucky Valley Medical Association, holding various offices in that body.

The funeral was held Thursday morning, services being conducted at the Christian church by Rev. D. H. Matherly, and at the grave by the Masons and Oddfellows. As a mark of respect to Dr. Williams the city school was dismissed Wednesday and Thursday, and every business house in town was closed Thursday during the funeral service.

## Good Results At Revival Meeting.

The revival meeting at the Christian church is drawing good crowds and Brother Winkler's sermons are very effective.

During the past week there have been several conversions, and several applicants were baptized at the river Sunday afternoon. The meeting will continue for some days yet, and Bro. Winkler will hold one at Stanton commencing November 8.

Following are the names of those baptized Sunday: Asa Burgher, Fred Smithers, Bert Eaton, Henry Withers, Mrs. Mable Ringo, and Misses Thomas and Patton.

## Children of The Mountains

The following article was written by Mrs. W. C. Seale, principal of the Clay City school:

"DUTY and TODAY are ours FUTURE and RESULTS belong to GOD." The national idea of education is to uplift, and GOD is pointing us to the mountains—let us go up and take possession of the people by helping them get an education.

Day by day man is pushing deeper and deeper into this rich storehouse for material things, where with lavish hand GOD has piled for His children untold and still undiscovered treasures of the forest in mines and quarries, fruit and flowers. Are not men and women, boys and girls more valuable than the material things for which men are daily striving? Should we not pay more attention to the intellectual upbuilding of these our mountain people? Here we find the most interesting example of of retarded progress. Closed in from the world, restless world, by a steep, back-bone stretch of seven States, here is an occasional road, other than than a creek, with unbridged streams, isolated districts, unsophisticated, consequently deprived of the progress, the most essential of progress, the people lack the quickening of thought, the quickening of the ambition, the quickening of learning.

When James Ogle, only son of Mary Queen of Scots, came to the throne, the countries were united under a sovereign, each retained its own Parliament, its own church, and its own laws. The monarch was ruler over these kingdoms. In 1607 James imported a number of Scotch Highlanders into Ulster Province Ireland, to punish the Irish. Later he misused and persecuted these immigrants so they emigrated to America. Most of them came the Appalachian valleys toward the southwest, others, including English and Germans, entered Virginia and Carolinas. The Scotch held themselves to the highlands with its luxuriant beauty. This was a comfort to them in their longing for Scotland. Today purest Anglo-Saxon blood flows through the veins of the mountain people. There is nowhere to be found a finer type of loyal, sturdy, God fearing citizen.

The State has struggled against manifold difficulties in its effort to raise the standard of excellence in the schools. Owing to the lack of funds, the county districts have suffered most, especially the mountain regions.

Many have been benefitted by the capitalists who have gone into the mountains and established schools in their mining camps for the benefit of the children of their employees and have given the children of the district the

## Former Citizen Dies in Arizona.

John Vaughn a former resident of this county, died at his home in Phoenix, Arizona, Monday.

Mr. Vaughn was 78 years of age, and was born and raised on Hardwick's creek, living here until about 16 years ago, when he moved to Arizona. He and Mrs. Vaughn made a visit to relatives here last year, and appeared to be in splendid health for a man of his age. He is survived by one sister, Mrs. Sarah Shimmfessel of Hardwick's creek, and a number of other relatives here. His wife, four sons, George, Vernon, Sam and Joe, and one daughter, Lula, also survive him, all living in Arizona. No particulars had been received of his death, beyond a telegram to Mr. Shimmfessel, but it is supposed he died suddenly, as no word had been received of his illness.

## Nothing Doing Yet.

According to latest word from the officers of the Pearsite company, it has not yet been settled whether or not the big company will locate here. Negotiations are still under way and it is quite probable that the matter will be brought to a head within a few days. In the meantime, all we can do is hope that they will see the advantages that Clay City possesses over other places who are trying to get them, and that they will remain here permanently.

## Having It Charged.

A Western Kentucky exchange has observed that some of the citizens in town have quit patronizing the mail order house during the present "hard times", and are now buying their goods at home—where they can be charged. The citizens can never get credit at the mail order house if they had spent a million there, but the good old home merchant puts it down on the books, and very often it stays there.

## STANTON.

(By P. O. Derthick.)

The entertainment at the college Friday night under the direction of Miss Julia Evans, was thoroughly enjoyed by the large crowd that attended. All the selections given were from Rileys poems. The singing by the quartette composed of George Derickson, Herbert Jones, Ernest Lyle and Prof. Richie was one of the best features of the program.

Rev. J. C. Hanley, Everett Randall and Dudley Caudill will attend the educational meeting at Frankfort this week. Prof. Hanley is on the program.

Carl Welch has returned from his trip to Kansas and reports having had a fine time.

The cemetery fund is still growing, there being about \$90 in cash and pledges in sight. Jas. Welch gave \$3. Please send in your pledges as soon as possible.

Charley Jackson, of Cincinnati was home this week to visit his mother.

Burford Estes, of Hardwick's Creek, attended the Kentucky Sunday School Association convention at Louisville.

The Sunday School convention at Louisville was a splendid one, nearly every county being represented. One of the principal features of the program was the playing of the piano by Alvin Roper, who delighted the audience. Next week we will comment on the address of Rev. J. D. Darling, of Ohio.

Mrs. Mary Howard, wife of Jim Howard, of Brush creek, died Tuesday, the funeral being held Wednesday at Powells valley.

Gother Martin and George Derickson were down from Stanton Saturday and called at The Times office.

A little two-year old child of Gill Stevens died Monday night, and was buried Tuesday.

A HOME-MADE PAPER.

THURSDAY, OCT. 14, 1915

In the death of Dr. J. W. Williams Clay City loses a valuable citizen and one that we could ill afford to part with. As a citizen he was public-spirited, always to the front in doing what he could for the good of the town and encouraging every movement for the betterment of the town and its citizens. For the past two years he has served as chairman of the Board of Trustees, sacrificing much of his time to the good of the community. Many times he attended meetings of the Board when his health was such that it caused him great physical pain to leave home, but he considered his duty above his personal preferences, and his actions as a member of the Board were all for what he considered the best interests of the town. As a physician he was known to almost every person in the county and his passing will be regretted by many who, because of his skill, were saved many hours of pain. He was a man of few words, one who had his own business and attended to it, and the citizens of both town and county will miss him. Clay City can indeed, ill afford to lose a citizen of the calibre of Dr. Williams, and his place in the community will be hard to fill.

The result of the examination of the school children by members of the County Board of Health shows how badly such an examination was needed. We are reliably informed that several cases of trachoma, one of the most contagious of eye troubles, were discovered, and also some cases of itch and some throat troubles. The children found affected were sent home for treatment. We are of the opinion that the Board should go a step farther and prescribe the necessary treatment for the children, and also see that the schools of the county are visited a little more frequently and the children examined for these and other troubles. No doubt the recent outbreak of diphtheria could have been checked much sooner had all the school children in the county been examined regularly. A good plan would be to divide the county into sections, allowing the members of the Board to be responsible for schools in their district, and examinations made at regular intervals. In this way the health of the children would be safeguarded, and the chances of infection lessened.

## Mrs. M. Joseph Says 'Excellent'

### Louisville Woman As- serts Tanlac Benefitted Her Wonder- fully

Louisville, Ky. Oct. 13.—Mrs. Minnie Joseph, wife of Louis Joseph, the well-known employee of Fontaine Ferry Park, is among the hundreds of Louisville people who recently have indorsed Tanlac. Mrs. Joseph said:

"I have suffered from nervous debility several years. My system was all run down. I had nervous headaches and was generally depressed in spirits.

"I used a number of preparations in the hope of bettering my condition, but nothing seemed to accomplish the right results until I began taking Tanlac. Tanlac has proved a most excellent tonic in my case. It relieved me wonderfully. I am so much better and I willingly recommend this medicine."

Tanlac, the premier preparation, can now be had in Clay City at Eaton & McGuire's, and in Stanton at Hardwick & Co's.

### Clean Your Flues.

Now the cold weather is approaching, and means of heating are being put in commission, utmost care should be taken to prevent fires from destroying property.

Every year, millions of dollars worth of property is destroyed by fire, and three fourths of these fires occur during the winter. Most of them originate from a "defective flue." Flues should be well cleaned before winter weather comes, and leaky pipes repaired. This will prevent several millions dollars worth of property from being destroyed by fire.

### Get Rid of Those Poisons in Your System

You will find Dr. King's New Life Pills a most satisfactory laxative in releasing the poisons from your system. Accumulated waste and poisons cause manifold ailments unless released. Dizziness, spots before the eyes, blackness and a miserable feeling generally are indications that you need Dr. King's New Life Pills. Take a dose tonight and you will experience grateful relief by morning. 25c.

### Foreign Doctors.

One does not need to be a citizen of the United States in order to be permitted to practice medicine in this country. The foreign-born person, if able to pass the required examination, can practice as well as the native born.

## Exhibit Car of the Kentucky Tuberculosis Commission

THE Tuberculosis Commission equipped a railroad coach with an exhibit regarding tuberculosis and how to prevent the spread of the disease and has sent it to many points in the state. By means of pictures, descriptions, toy houses and electric devices the whole story of the cause, cure and prevention of consumption is told in graphic form for the passerby. In a little over a year 68,000 people have been reached in all sections of the state. Especial pains have been taken to reach teachers and school children so that this message of good health may be communicated through them to as many people as possible.

## Administration Building and Infirmary, Hazelwood Sanatorium, Louisville

THIS building, with adjacent cottages, is the only place in Kentucky for the reception of any case of tuberculosis except for the Jefferson county institution, Waverly Hills Sanatorium and the little Jackson Hill Sanatorium at Paducah. White patients in all stages of the disease may here receive the essentials of treatment—namely, medical supervision, fresh air, rest and correct diet. The rates are \$12.50 per week. Any person interested in obtaining treatment here should address Dr. Oscar O. Miller, Resident Physician, Hazelwood Sanatorium, Rural Free Delivery No. 2, Louisville, Ky. The head nurse is Miss Catherine Hooe of Louisville.

Prominent physicians from all sections of the state comprise the medical advisory board, of which Dr. Ap Morgan Vance is chairman. F. A. Sampson is superintendent.

### Try This on Rats.

A good way to get rid of rats is to collect some thin chips, pieces of shingle or tin and pour over them enough molasses to cover them well; sprinkle dry lye over the chips and place them in every rat hole you can find. The rats will soon move out.

### Felt She Had Kick Coming.

"Are you the editor of the paper?" asked the lady with the drab spats, calling. "I am," replied the man with the poised pencil. "Well, I called to ask you if you wouldn't get larger type. My name was in your paper five times last week and a neighbor of mine told me she never saw it."

## It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

privilege of coming to school. In most camps they have nine months school by joining their interests with the county.

There are thirty-nine persons to the square mile in the mountains, the population being 3, 444,000. The density of the population is greater in the mountains than in any other part of the state. This will come as a surprise to many. The home mission boards are working nobly for the people; they are sending Christian men and women to teach in the schools and many profess faith in God under their helpful influence.

In order that Burbank might continue his work in the plant life the Carnegie Institution subsidized to the amount of \$10,000 yearly for ten years. This amount would pay the tuition of 1,000 boys and girls for one year. The average annual tuition is about \$11 per month for each student. Every school in the mountains demands enlargement, and, on account of the limited facilities, the work is hindered. Many thousand are turned away each year.

In one of the mountain colleges the teachers have each had \$14 a month for their services this year. The work has had to be built on just such sacrifices and no one on the force feels like a martyr, or considers he has done anything out of the ordinary. Should not our

care for men, women and children take precedence of plants and animals? More especially the children, for so soon will they be men and women, living in ignorance unless we lend a helping hand.

we find among them some of the brightest promises of the future; their earnestness is a reproach to many fortunate youths.

Those who have had a chance for an education are making brighter and better homes, and doing much good for the uplift of society.

The church, the home and press are mighty powers for good, but these have their limitations, the one greater institution in which all men will share alike are the schools. Here the foundations are laid that will help them stand the storm and strain of life. The few schools that have been established, few compared to the great needs, indicate unlimited benefits to be derived. Transforming and revolutionary powers have gone far towards diminishing crime suppressing lawlessness and creating a desire for better conditions in the home and community at large.

There is but one great question before the world today and that is how to make men and women better and the only answer; EDUCATE THEM.

It is not for us to reckon results of our work, for DUTY and TODAY are ours, FUTURITY and results belong to GOD.

#### LOSE THEIR MENTAL POISE

Surgeons With the French Army Have to Cope With Soldiers' "Hypnosis of Battle."

Surgeons with the French army describe a peculiar mental condition called "hypnosis of battle," which they have noticed in soldiers who have been in action. The hypnotic state lasts from two or three days to a week, and even longer. Then consciousness suddenly returns.

The victim is incapable of walking unless pushed or led by the hand, but when placed on his feet stands erect and motionless, with the head bent forward and eyes half closed. He cannot be awakened, but is not in a state of coma. In some instances a condition of hallucinatory delirium appears when verbal inquiry is made of the patient as to his experiences in the battle.

The hypnosis is met with oftenest in young men from the cities. Fatigue and the lack of food incident to long marches, or failure of the provision trains to reach the men, are the chief predisposing causes. Fear due to some very trying experience in battle or to being held under fire without orders to move usually precipitate the outbreak of the disease.

A great number of new mental and nervous diseases have been produced by what is known as "shell shock," that is the effect of the passage or bursting of a shell near a man without doing him visible physical injury. Among the results of shell shock noted have been reduction of vision, loss of hearing, loss of smell, loss of taste, loss of memory and paralysis of various physical functions.

#### Polish Patriotic Memorial.

Cracow was once the capital of free Poland, with a cathedral equivalent to Westminster abbey, wherein sleep the generations of Polish kings and heroes. It possesses the most striking patriotic memorial in the world. This is the Kosciuskoberg, a mound 300 feet high, erected to the memory of Kosciusko, and formed of earth from every battlefield of Poland.

### Camp Singing.

The camp at the big  
tent is a great success.  
God is blessing the people and  
many are being sancti-  
fied. Father and mothers as  
well as sons and daughters are  
made to realize the Savior  
and the Lord. Singing his ser-  
vants to praise the old-time, sin-  
killing, devil-busting gospel.

Come and spend some of your  
time at this meeting and you  
won't regret it. Meeting all  
day Sunday with preaching at  
10.30, a. m., 3 p. m., and 7 p. m.

Bring your dinner and stay all  
day. The preachers in charge of  
the meeting are Sister Burke,  
and Bros Brandenburg and Rey-  
nolds, while the singing is con-  
ducted by Bro. and Sister Gouinn.  
It will be a treat for you to hear  
their singing and it will make  
you hungry for God. Be sure and  
come.

### Why The Cin- cinnati Post

Should be your daily newspaper.

Because The Post is honest and not  
afraid; because The Post is on the side  
of justice, always ready to fight when  
it knows it is right and no power on  
earth strong enough to swerve it from  
its purpose. The Post tries to be and  
believes it is an interesting, accurate  
and well written newspaper. Besides  
the straight from the shoulder news  
policy in The Post you will always find  
the best of everything that completes  
a daily newspaper, viz: Editorials, Car-  
toons, Market Reports, Sport News,  
Special Articles by special writers, A  
New Novel every week, Mrs. Evans'  
Page for Women and a host of other  
good things. Be convinced that The  
Post is the newsiest and most enter-  
prising newspaper in the middle west  
by giving it a trial. Order from Post  
agent in town or by mail, 30c for a sin-  
gle month and 50c for two months.  
Do it today and you will never regret  
it. If you order by mail, send order to  
The Cincinnati Post, Cincinnati, Ohio.
